ECHOE Bibliography

Revised September 9, 2024

This bibliography on the Old English homiletic tradition and its sources was compiled during the period 2017–2023, and has seen little maintenance since. You may access it as a Zotero library, or in biblatex and PDF formats in the ECHOE Repository. Please note that the entries are not without errors, and that there may be discrepancies between the various output formats due to the different processing pipelines used. Although this bibliography may be used alongside ECHOE's source reports, the entries' year-suffixes (as in "Atherton 1996a") differ between the source reports and the various output formats. If you see an urgent need for correction, you may contact Paul Langeslag, but please understand that we lack the resources to keep the bibliography current.
